Northern, Eastern and Western Devon Clinical Commissioning Group
South Devon and Torbay Clinical Commissioning Group

Stage 1 Rapid Equality Impact Assessment Form –see checklist

Please use the guidance provided and give particular consideration to the needs of people with protected characteristics age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, sex, race, religion or belief and sexual orientation.

This Equality Impact Assessment is applicable to the populations of Northern, Eastern and Western Devon Clinical Commissioning Group and South Devon & Torbay Clinical Commissioning Group who work together to carry out their responsibilities for making local decisions about the funding of medicines and treatments in the NHS.

Title of work:
Commissioning policy: Tocilizumab subcutaneous injection for rheumatoid arthritis

Who does the proposed piece of work affect?			
Staff	Patients	Carers	Public
☐	☑	☐	☐

1. What are the aims and objectives of the work being assessed?

To establish a commissioning position on the routine use of tocilizumab subcutaneous injection as an alternative treatment option to tocilizumab intravenous infusion for the treatment of rheumatoid arthritis where use is in line with NICE guidance for tocilizumab (NICE TA247)

Clinicians with an interest in, and patients with rheumatoid arthritis should have clarity how tocilizumab subcutaneous injection will be commissioned by the Clinical Commissioning Groups in Devon.

It is noted that subcutaneous injection is more convenient for patients with rheumatoid arthritis and would allow administration at home.

		Yes	No
2.	Will the proposal have any impact on discrimination, equality of opportunity or relations between groups?		✓
3.	Is the proposal controversial in any way (including media, academic, voluntary or sector specific interest) about the proposed work?		✓
4.	Will there be a positive benefit to the users or workforce as a result of the proposed work?	✓	
5.	Will the users or workforce be disadvantaged as a result of the proposed work?		✓
6.	Is there doubt about answers to any of the above questions (e.g. there is not enough information to draw a conclusion)?		✓

If the answer to any of the above questions is yes (except for question 4) or you are unsure of your answers to any of the above you should complete a full impact assessment.

A Full Impact Assessment is required ☐ is not required ☑

If a full impact assessment is not required briefly explain why and provide evidence for the decision.

This commissioning policy makes an additional treatment option available for patients with a particular condition.

Job Title: Clinical Effectiveness Governance Manager

Directorate: Clinical Effectiveness and Medicines Optimisation
